

KSSENA – Energy agency of Savinjska, Šaleška and Koroška region
invites you to

INTERNATIONAL CONFERENCE

ENERGY CERTIFICATE – LET YOUR BUILDINGS TALK

Wednesday, 13 October, 2010 at 9:00 am, Velenje, Hall of Hotel Paka

Conference is co-finance by

Every new building in Slovenia must be equipped with energy certificates for buildings. Public building with over 500 m² is obligated to have energy certificates hanged on visible spots from 31.12.2010.

If you have questions like why, how and what measures should be carried out to obtain the energy certificates you are welcome to attend the FREE international conference. The experts in the field of energy certification of buildings from Slovenia and Europe will presents their experience and try to answer to all your questions.

In countries across Europe energy certificates are issued for several years according to the guidelines of **The European Directive on the Energy Performance of Buildings** (EPBD - 2002/91/EC). Through »certificates« the users are informed about energy efficiency of buildings. A very good example of "energy certification" is **Display® poster** created under **IEE Cyber Display project**. It is a voluntary form of energy certificates and it is hanged on 13.123 buildings in 452 communities of 27 different European countries .Through energy certificates stakeholders, energy managers and users improved energy situation of buildings. Croatia- community Ivanič-grad is certainly a good example of energy reconstruction based on results of Display® Posters.

The mean purpose of international conference is to answer to all questions about energy certificates and present how and when they will be in general use in Slovenia.

Draft agenda

09:00 REGISTRATION

09:30 START FIRST PART

- Welcome speach

- **Ian Turner, Energie Cities, France**
The Display® Campaign - Communicate your buildings performances
- **David Harnett, Milton Keynes Council, England**
DEC practice in England & Wales: current position and looking forward
- **Vlatka Berlan Vlahek, Grad Ivanič-Grad, Croatia**
The introduction of energy efficiency at local level: Energy management of Ivanič-grad

11:30 COFFE BREAK

12:00 SECOND PART

- **dr. Peter Novak, School of technologies and systems Novo Mesto – VITES, Slovenia**
Energy certificate in theory and practice
- **Erik Potočar, Ministry of the Economy, Directorate for Energy, Slovenia**
Legislation and procedures for implementing energy certificates
- **dr. Marjana Šijanec Zavrl, Construction Institute ZRMK, Slovenia**
Energy certificate - early experience in Slovenia
- **Damjana Žabkar, Ursa Slovenia d.o.o. – URALITA, Slovenia**
Calculation tool for building physics URSA 4

14:00 END OF CONFERENCE WITH SNACKS

The international conference will be held in Slovenian and English languages and will be simultaneously translated. The conference is organized under the project **Cyber Display®** and is co-financed by the **Intelligent Energy Europe**.

REGISTRATION is open until Tuesday, 12 October 2010. Number of participants is limited

- To register online at www.kssena.si
- The classic application: send the completed application form by fax (fax nr.: +386 3 8961 522) or scanned by e-mail to nedisa.trumic@kssena.velenje.eu

For further information please contact us by e-mail address nedisa.trumic@kssena.velenje.eu. or by phone: +386 3 8961 520.

Participation at the conference is FREE OF CHARGE!
